What is Wildlife?

The City Nature Challenge focuses on wildlife, which are animals and plants that are not created or raised by humans. For example, a weed growing out of the sidewalk is wildlife, while a pet dog is not.

Wild

Captive or Cultivated (Not Wild)

A. In each of the rows below, circle the object that is NOT wild.

1. A shark in the ocean A catfish in a river A goldfish in an aquarium
2. A tree in a forest A weed in your backyard A rosebush in the school garden
3. A rabbit in a meadow A fly that landed on a rabbit A rabbit at a petting zoo

B. What plants or animals do you have at home? Are these wild, or not wild?

C. What are common features of captive or cultivated (not wild) animals and plants?
