

Name: _____ Date: _____

A BIODIVERSE CAMPUS

For an ecosystem to thrive, there needs to be **biodiversity**, or the variety of life in a particular region. By participating in a school bioblitz, you are contributing to the documentation of the biodiversity on campus.

1) Based on your results, do you think your school campus is biodiverse? Why or why not?

2) Explain one **PHYSICAL** change your school can make to better support biodiversity on campus.

3) Explain one **POLICY** change your school can make to better support biodiversity on campus.
