Bioblitz Predictions

What are you expecting to find during this bioblitz? Before going out to make observations, think about the types of wildlife you have seen at school and where you have seen them. Make some predictions below about what we might encounter!

What types of wildlife do you expect to see during the bioblitz?

How many different species do you think we can find?

What type of wildlife do you think is the most common here?
Why?

Which part of the school do you expect to find the most species?
Why?
